Product Catalogue
(2026 - full version)

Driven by Quality.
Backed by Generations.

ABOUT US

Founded in 1971 by Mr. K.L. Dang, DNG is a proud Make in India enterprise specializing in high-quality rubber automotive components. Built on a foundation of integrity and craftsmanship, DNG has consistently earned industry trust for delivering superior performance and precision with every product.

OUR LEGACY

What began as a humble vision over five decades ago has grown into a legacy of excellence.

Mr. K.L. Dang believed that true success lies in being known for quality. In an era when the automotive rubber industry was still evolving, he committed to manufacturing components that could stand the test of time and trust.

His son, Mr. Anil Dang, has carried this vision forward for over 35 years strengthening DNG's manufacturing capabilities, expanding its product line and upholding the core values of reliability and customer trust.

Today, the third generation, Mr. Kanish Dang is shaping the future of DNG. With a fresh global outlook, he aims to bring innovation, transparency and international recognition to the brand. "It's time the world knew about DNG," he says with a mission to position the brand on the global automotive map.

Our Machinery that delivers the finest quality of products.

Custom-made Product Die that controls :

- Exact size & dimensions, ▪ Thickness & hardness distribution
- Strength & durability, ▪ Fitment accuracy in the vehicle
- Surface finish & consistency

MISSION & VISION

MISSION:

To manufacture high-performance automotive rubber components that consistently exceed industry standards in quality, durability, and reliability

Vision:

To become a globally recognised Indian brand known for engineering excellence, customer trust, and generational legacy in the automotive manufacturing sector.

WHY DNG?

- Over 50 Years of Expertise, ▪ Family-Led Legacy With Modern Vision
- Uncompromised Quality Standards, ▪ Trusted by Industry Professionals Across India
- 100% Make in India Manufacturing

OUR SIGNATURE PRODUCT

Rear Coil Spring Pads

DNG's flagship product, the Rear Coil Spring Pad is engineered for maximum stability, durability, and performance.

Manufactured using premium-grade rubber and precise moulding techniques, our coil spring pads outperform conventional alternatives earning the trust of wholesalers and automobile service professionals alike.
